THIRTY THIRD YEAR

LANCASTER, KY., THURSDAY AFTERNOON, SEPTEMBER 14, 1922.

NUMBER 23.

GARRARD COUNTY CONVENTION

Of Christian Churches Was Enjoyable Event

The Garrard County Convention of the Christian churches was held at Fairview Monday and Tuesday of this week. It was a good convention in every way, except that the attendance was not as large as it should have been. The Fairview people proved themselves again to be most gracious hosts, providing abundant dinners both days despite the fact that it was understood that all who attended were to bring their own lunches.

The out of the county people who were present and had places on the program were: N. K. McGowan, of Louisville, State S. S. Superintendent for the District; J. S. Hilton, Louisville, Secretary and Treasurer of the Orphans' Home; Edgar C. Riley, Lexington, Financial Secretary for Transylvania College; and Mrs. J. T. Sullivan, Louisville, special representative of the Woman's Missionary Society. The following ministers were present and made addresses: T. B. Clayton, Lexington; C. C. Isaac, Madison County; R. B. Baker, Berea; C. A. VanWinkle, of Paint Lick and E. B. Bourland, of Lancaster. In addition to the two ministers named above as residents in Garrard county and taking part on the program, the following Lancaster and Garrard county people participated in the meetings: Mrs. J. B. Kinnaid, Mrs. John Tribble, Mrs. L. N. Miller, Mrs. Ross Bastin, Miss Cynthia Pruitt, and the two young daughters of Dr. and Mrs. J. E. Edwards.

The following aims for the next year were recommended by the Committee on "Future Work" and adopted by the convention: 1st. An all the year Sunday School in every church; 2nd. The Lord's Supper every Sunday in every church; 3rd. A minister for every church, the group plan being followed where possible; 4th. A Christian Endeavor Society in every church; 5th. A revival meeting in every church within the year; 6th. A volunteer for full-time Christian service from every church; 7th. An offering from every Sunday School for the work of the County Community and 8th. Representatives from every church and Sunday School at the next county convention.

New officers for the coming year were chosen as follows: President, J. E. Stormes; First Vice President, E. B. Bourland; Second Vice President, Mrs. W. M. Elliott; Third Vice President, Ribb. Gastineau; Children's Superintendent, Mrs. L. N. Miller; Young People's Superintendent, Miss Cynthia Pruitt; Adult Superintendent, Mrs. C. A. VanWinkle. The next convention will be held in Lancaster.

Baptist Church News

Our special meetings are now in progress. Brother Martin was unable to be with us Monday and Tuesday evenings, but Brother Walker, of the Danville church came over on Tuesday evening with a great message that did us all good. There will be services each night at 7:30, and each morning at ten o'clock at the church. There will be four services next Sunday, Sunday school at 9:45; Preaching at 10:45; 3 o'clock and 7:30. Brother Martin will be the preacher at each service. He is a God sent man and will lead us in a great meeting if we do our part in co-operation. Pray as though all depended upon God. Then go out and work as though all depended upon us.

A cordial welcome to all to attend our services.

Bulgin Meeting

Messrs. E. R. Dillehay, Walla Latta, Lee Simms and D. T. Brummitt, of Harrodsburg were in the city last Tuesday afternoon, boosting the big Bulgin meeting now in progress in that city. Friday night of this week has been designated as Lancaster night and we predict that many from here will attend.

Big Sale Coming

As agent for the heirs of Mrs. Henrietta Pendleton, Mr. W. O. Rigney will sell the farm of the deceased, consisting of about 75 acres, on Saturday, September 30th.

Watch next issue of the Record for full particulars.

Friday Night

Don't forget to attend the meeting of the Chamber of Commerce tomorrow night. It's important that a good attendance be on hand.

FOOT BALL PRACTICE

Begun Last Thursday—Excellent Schedule Arranged

With the opening of the Lancaster High School on Monday morning of last week the word Foot Ball was on the lips of many of the old timers and Captain Cox called a meeting immediately after the close of the day's work for a business meeting of all who intend to go out for the team.

Lancaster High School has always been represented in the athletic field for the high class, clean athletics that the school has always stood for, and will continue to stand for. Supt. P. B. Boyd addressed the meeting, and told the boys of his approval of athletics as long as they made Foot Ball or any other game as far as that is concerned, a side line to the school and not allow the school to be a side line to athletics.

Mr. J. M. McRoberts of the McRoberts Drug Store will again be in charge of this year's team, and is acting in the capacity of head coach and athletic director. The boys chose Mr. J. R. Haselden, Jr., to act for the time being, as student manager, and we dare predict that at the next regular meeting of the team that they will affirm J. R.'s appointment, as he has already taken to his new task to assist this year's team in whatever capacity that he can.

It was very gratifying to assist Coach Wilmont to see so many of the old line men for this year's team among them being, Hamilton Cox, W. Robinson, G. D. Robinson, V. Gastineau, C. Gastineau, H. Crutchfield, F. Bratton, Wm. Anderson, B. Kavanaugh, H. Speake, O. Moore, Henry Cox, P. Stapp, C. R. Gaines, W. Daniels; among the new men out for the team are E. Creech, R. Bourland, D. Estes, Jack Williams, C. Gooch, R. Brown, V. A. Lear, F. Humber, L. Thompson, J. Elliott, L. J. Sanford, S. B. Sanders, W. R. Arnold, H. Carrier, D. Haselden and L. Haselden.

The following is a list of the games scheduled to this date and Athletic Director McRoberts has the promise of several more games that are just as good if not better. He has arranged these games and it will require that the lovers of the great fall game back this year's team to the limit.

Following is the schedule to date: Sept. 15th.—Junction City at Lancaster.

Sept. 22nd.—Nicholasville Hi at Lancaster.

Sept. 29th.—Versailles Hi at Versailles.

Oct. 6th.—Danville Hi at Lancaster.

Oct. 13th.—Clarke Co. High at Lancaster.

Oct. 20th.—Madison Hi, Richmond at Richmond.

Oct. 27th.—Georgetown Hi at Lancaster.

Nov. 3rd.—Cynthiana at Cynthiana, (Pending.)

Nov. 11th.—Stanford at Lancaster.

Nov. 17th.—Springfield at Lancaster, (Pending.)

Nov. 24th.—Open.

Nov. 30th.—Lexington Model Hi, at Lancaster.

Season closes.

Methodist Church Notes

Rev. H. W. Whitaker filled the pulpit last Sunday at both services. The other ministers were present with their congregations in the evening to welcome the new pastor. He and his family moved into the parsonage this week.

There will be regular services Sunday morning. During the Baptist revival the Epworth League will meet at 6:30 to allow time for earlier attendance at the other services. In keeping with the plan of the pastors one other church service will be held on Sunday night during revivals.

Sunday evening the service will be held at the Presbyterian church.

The Methodist church is entering into the new conference year. Let us begin it with renewed interest and loyalty and the purpose to make it a great year in every activity of the church. The pastor is counting upon the support and co-operation of every member and he is confident that the congregation is beginning the new year in that spirit.

Wonderful Drama

Those who fail to see "Ten Nights in a Barroom" to be presented at Romans' Opera House, tonight will miss one of the greatest heart interest drama the world has ever known. The picture has been proclaimed by the press as the supreme effort of the screen.

FORTY FOOT RIGHT OF WAY

On All Roads Taken Over for State Maintenance

Replying to an inquiry from County Road Engineer, Irvine Stapp, as to regulations governing widths of right of way on roads taken over for state maintenance, the following reply was promptly received from division engineer, T. B. Smith, which gives the law with the bark on it, and must be observed, says County Judge Treadway, before the Lexington pike now under construction, will be taken over by the state.

His letter follows: Winchester, K., September 7, 1922.

Mr. Irvine Stapp, County Road Engineer, Lancaster, Kentucky, Dear Sir:—

Your letter of September 6th., received requesting instructions from this department as to regulations governing widths of right of way on roads taken over for state maintenance. For your information please be advised that the maintenance department has certain rules and regulations governing widths of right of way on roads to be taken over for state maintenance, same being in all cases not less than 40 feet in width or 20 feet each side of center line of road. This being the case, it will be necessary for you to have all fences moved back at least 20 feet from the center line of the Lexington road before same will be accepted for state maintenance.

Very truly yours, T. B. Smith, Division Engineer.

Judge Treadway informs us that he will be glad to confer with those whose fences have to be moved back, at any time in his office, at which time he can show them where it will be much cheaper for the owner to do the work than for the county officials.

OUTLOOK GOOD

For Great Revival at Baptist Church

The revival which started at the Baptist church last Monday evening, promises to be one of the best held in Lancaster for many months. Under the pastorate of Mr. William E. Rix, this church has grown both numerically and spiritually. The coming of Rev. J. E. Martin, of Jellico, Tenn., who will do the preaching, is an eminently successful evangelist and his meeting should result in much spiritual refreshment as well as much fruitfulness.

Dr. Martin was unable to be here Monday and Tuesday evening and the pulpit was filled by Rev. Walker, of Danville Baptist church Tuesday evening.

The public is cordially invited to attend all services and is at all times welcome.

Coy Place Sells

County Attorney T. J. Underwood purchased the Coy property on Richmond street last Saturday afternoon, at public auction, for \$3,000. It is considered cheap property. Mr. Underwood and his family will move to Lancaster permanently about January 1st., at which time they get possession of their home. The Roy School property on Danville street, was taken down, after a bid of \$4,750 was offered.

Snake Gourds

Did you ever see a rattle snake gourd? When passing, cast your eye into one of the windows of the Record office and you will see two. They are 42 inches long and were grown by J. T. Blanks out on Route No. 2. Some gourds, we say.

Card of Thanks

We want to express our thanks to our friends for the many kindnesses shown us during the illness and death of our mother and for the many beautiful floral displays.

Family of Mrs. Margaret Arnold.

Back to Stay

William L. Fredrick, of the Fredrick Sign Company, has returned to Lancaster with his bride, and will locate here permanently. Mr. Fredrick is the best sign painter in the State and we are glad he has decided to locate in Lancaster. He now offers his services to the public.

GREAT DAY IN BEREA

Sunday, September 17th., 1922, Union Church House

Dedication

This event touches every home for miles around.

The Union Church is "the Mother of Berea College" and a fountain of good for all the people of this region.

The building is a memorial of John G. Fee. Everyone who knows Kentucky, or the lot of America's heroes, knows that name. Fee came to Madison county in 1853, protected by Gen. Cassius M. Clay, and founded a union church, and a church opposed to slavery. He outlived more than twenty mobs. His courage in danger, his cheerfulness under prosecution, his sublime faith in the right, may be a strength-giving tonic to all who try to advance the Kingdom of God in the face of difficulties and opposition.

And the church is still advancing. This is no ordinary church house for worship once a week. It proposes to help all people every day in the week. Besides the main auditorium, there is a spacious Sunday School room, and nine community rooms. These will accommodate the "Woman's Industrial," for which the church is famous. And they will provide elevating recreations, so young people need not be tempted toward harm—music, boy scouts and what not. And here ladies coming to town to trade can find a place to wash their hands and take a little rest. It is intended to be "The Church of the Open Door."

The exercises have been planned on a large scale. Former pastors, Dr. Benson H. Roberts and Dr. Thompson, of Lincoln Ridge, and other eminent servants of God will take part. The sermon will be by President Hutchins.—Berea Citizen.

Auto Accident

Mrs. Elizabeth Corman, of Mercer county, was seriously but not dangerously injured last Sunday afternoon, when the car in which she was riding, collided with the car of Mr. and Mrs. G. B. Swinebroad, near Point Leavell, on the Richmond pike. The crash was so sudden that Mrs. Corman was thrown through the windshield of her car and her chin and throat severely cut by the glass. Her car was driven by her son, who was not injured, nor were any of the occupants of the Swinebroad car. The latter car was being driven by Marris Swinebroad and in the car with him were Mr. and Mrs. Swinebroad. Mrs. Corman was carried to the home of her sister, Mrs. Nathan Cotton, whom she was visiting and is being cared for by Dr. Virgil Kinnaid, who was called immediately after the accident. Several stitches had to be taken in the throat of Mrs. Carmon, whom we are glad to state at this time is rapidly improving. The Corman car was damaged considerably and the fender of the Swinebroad car, which is a handsome Cadillac, was badly bent.

Over Dixie Airline

Mr. and Mrs. Herman Frasa, of Dayton, Tenn., have been spending several days with relatives near Bryantsville. They motored through, and came over the Dixie Airline, via, Whitley City, Somerset, Stanford and Lancaster.

Mr. Frasa is very enthusiastic over the new highway and believes that it will be open for traffic by the latter part of 1923.

McCreary county through which the highway runs, recently voted a \$20,000 bond issue for the building of the county's party of this road, which practically assures its completion by next fall.

Nothing Doing

Says McAdoo; Will Not Run

Idaho Falls, Idaho, Sept. 9.—William A. McAdoo, former secretary of the treasury, today characterized as "pure bunk," a recent press report from New York in which William C. Lyons of Denver, Colo., said Mr. McAdoo had told him that he would be a candidate for the Democratic presidential nomination in 1924.

Mr. McAdoo was interviewed by a representative of the Idaho Falls Post aboard a log raft, "the McAdoo special" on which he and a party of friends are making a fishing trip down Snake river.

"There is nothing further from my mind than a return to public life," Mr. McAdoo said. "My change of residence to California was intended to remove me from and not to inject me into public politics."

BURLEY ELECTION SET FOR SATURDAY

Delegates to District Convention to be Chosen, Who Will Meet Monday and

Elect Association

Directors

Saturday, between the hours of 8 A. M. and 4 P. M. the members of the Burley Tobacco Growers' Co-operative Association will hold their annual election in this county. Every member of the Association can vote, but he must do so on an official ballot which will be furnished him by the officers of election. It can be voted by mail or sent in by a friend, if the grower is not able to attend the election in person.

The election Saturday will be held in every one of the organized counties of the Burley district. The delegates chosen Saturday will meet Monday in that county in each district which delivered to the Association the largest amount of tobacco in the past year and will elect the director for that district. There are twenty-two of the districts and the twenty-two directors elected next Monday will elect three directors at large, the entire board then proceeding to the election of the officers of the Association.

So far as can be learned there is no opposition to any of the present members of the directorate, with one or two exceptions, or to any of the officers of the Association who have conducted its business the past year.

The elections Saturday are to be held at the court houses in the various counties and will be in charge of men elected at mass meetings September 2nd., when the candidates for delegates were nominated by the growers themselves. Blank spaces are left on every ballot, so that the grower may write in the names of any persons for whom he may desire to vote, in case he does not wish to vote for candidates whose names appear on the ballot.

Nearly 70,000 men and women will take part in Saturday's election, it was said at the offices of the Association.

About The Newspaper

Speaking of what a newspaper does in a community the late United States Senator Davis, of Illinois, made an address in which he said:

"Every year each local paper gives from \$200 to \$1,000 in free lines to the city or town in which it is located, in boosting, praising and for lodges, churches, schools, societies, etc. The editor in proportion to his means, does more for the town than any other man in it, and he ought to be supported, not because you like or dislike him and his style, but because a local paper is one of the town's best features. Today the local papers are doing more for less pay than anything on earth, and it's a fact in many cases of free notices."

EVERYBODY

Expects to Attend Bryantsville Fair

Many from Lancaster and the surrounding community are making plans to attend the Community Fair at Bryantsville, Saturday, September 23rd., and a great day is anticipated. Those who are responsible for this immense undertaking are leaving no stones unturned to see that the fair is a success and from the present indications many entries will be made in the various departments.

The Lancaster and Lexington road will be thrown open to the public for this day, so no one need have any fear or anxiety along this line.

The Chamber of Commerce is working up a large delegation to attend in a body from Lancaster and are also expecting to bring a brass band along with them. A committee is working on this feature of the entertainment and will report at the meeting of the Chamber of Commerce Friday evening.

Did It Ever Function?

Frankfort, Sept. 9.—Governor's fuel committees will cease to function after today, following a telegram received from Governor Morrow today by J. A. Early, chairman of the committee ordering the committee to disband. Step was taken by the Governor, he said, after the Federal district fuel committee disbanded a week ago.

SURVEY

Is Started on Cincinnati-Lookout Mountain Air Line Road (Somerset Journal)

Mr. L. L. Pearsall, Chief Locating Engineer of the State Highway Department, was in the city yesterday and stated that he had started the survey for the Cincinnati-Lookout Mountain Air Line road. A crew of engineers were placed in McCreary county last week and they will survey to the Tennessee state line and then come to Pulaski county to make the survey south to McCreary County.

Mr. Pearsall stated that if the bond issue carried in McCreary county that work would be started on this road at once and rushed to completion. He plans to begin work at the state line and work north.

All that is necessary to make this great highway a certainty is to build the road through McCreary and part of Pulaski. Work is now going on in Tennessee to connect with the Kentucky road.

Mr. Pearsall also stated that he had a crew at work in Clinton county and that nine miles of pike would be built there to connect a gap between Monticello and Albany.

The Cincinnati-Lookout Mountain Air Line Association has been working for months to get this survey started and the association will also assist in the bond election in McCreary. Within a year we hope to see the completion of this great highway, which will mean so much to this section of the country.

Directors are

Poorly Paid

The silly report that the directors of the Burley Tobacco Co-operative Association receive the handsome salary of \$5,000 has gained currency. In order to find out exactly what the directors are paid, this paper asked Hon. W. H. Shanks, of this city, who is director from the counties of Lincoln, Garrard and Casey, he said: "We get the munificent sum of \$120 per year which is \$10 per month; it would be hard to figure how much per day. We also get our traveling expenses to and from Lexington, when we are called there for a meeting or for other business." This should set to rest the report that evidently was started that the Burley Association might be damaged. We don't know all the directors, but if they are any thing like our townsman in ability and otherwise, they are about the poorest paid bunch of business men we know of.—Interior Journal.

What Does

"Subluxation" Mean?

When a nerve is pressed upon by a vertebra in the spinal column it is called a subluxation of the vertebra. The Chiropractor by adjusting this subluxated vertebra, relieves the pressure on the nerve which runs through it; by so doing he gives nature a chance to build up the affected part of the body.

Life energy is nerve energy. Stop the normal flow of nerve energy and the life force is hindered.

The Chiropractor relieves the pressure on the nerves—the life force flows freely—normally.

Farm and Home News From Over Kentucky

A total of 380 Grayson county farmers and poultry keepers have been taught the method of separating the laying and loafing hens in their flocks by means of nine poultry culling demonstrations held recently by County Agent R. W. Seacore and the extension division of the College of Agriculture at Lexington. The owners of 40 flocks in the county reported that they handled a total of 1,700 hens, 450 of which proved to be low producers that had stopped laying until spring.

More than 2,000 acres of Whitley county farm land are expected to be seeded with cover crops this fall to protect them from erosion and leaching during the winter, County Agent E. F. Davis says.

Allen county farmers are contributing toward the success of the drive which the extension division of the College of Agriculture is conducting throughout the state against scrub breeding animals, County Agent A. M. Allen says. Thirteen of them

have enrolled in the movement by agreeing to use nothing but purebred sires in all their breeding work.

A campaign designed to eradicate tuberculosis from McLean county herds is going forward rapidly, County Agent R. H. Ford says. A total of 125 animals have been listed by their owners to be tested for the disease.

Fayette county farmers and poultrymen are showing increased interest in the improvement of their poultry flocks, County Agent W. R. Gabbert says. Attendance at poultry culling demonstrations have been 50 per cent greater this year than last year, he added.

Back in School Again

That means much to the children of this community. It means a continuance of the campaign of knowledge that is to turn them out finished and useful citizens of our country. But our duty to them does not end in returning them to their instructors. The latter will govern and guide them

while in the halls of learning, but the teacher cannot follow them after they leave its doors.

Ours is the duty of sheltering and protecting them from the pitfalls of the street and the open, from the snares which to them appear to be but innocent forms of pastime.

The responsibility of the teacher is heavy, but ours is infinitely more so.

Soybean and

Corn Growers

Now that corn and soybeans are maturing in all parts of the state, many farmers who have the two crops growing together are wondering how they can harvest enough bean seed to plant soys in all their corn next year. Pulling a half ton or more beans and stalks, storing them in the barn for a while and then later frailing them out is perhaps the best method of solving this problem, according to Ralph Kenney, soils and crops specialist of the College of Agriculture.

"A half ton of beans and stalks can be pulled with little difficulty and thrown into a wagon bed driven thru the corn field. Leaving the stalks and the beans in the barn until late

winter before the seeds are frailed out is a first class method of storing them since they are kept loose and dry. If the beans are threshed immediately after being pulled, they are apt to be ruined if they become damp afterwards or are damp when threshed.

"Commercial seed growers usually have one and a half tons of soybean straw from a crop that yields 20 bushels of seed an acre. Since this is the case, a half ton of good dry bean stalks and pods can be expected to yield five or six bushels of good, bright seed. The beans do not crack to a serious extent when frailed and are not molested by rats and mice when stored in piles."

To attract instant attention these days, one should ride a horse, or bowl along in a buggy.

Diseases Play Havoc

In Many Swine Herds

Infectious swine diseases, parasites and various other troubles are making it increasingly difficult for the Kentucky farmer to produce pork at a profit, according to reports being received by the veterinary department of the Kentucky Agricultural Experiment Station from all over the state. Cholera, abortion, bowel troubles and intestinal parasites have been on the increase and given considerable trouble during the last few months, the reports indicate.

"Hogs should be vaccinated with both the serum and virus in all cases where symptoms and lesions indicate that the disease may be cholera," Dr. W. W. Dimock, head of the department said. "In early stages, many diseased conditions of swine show symptoms that are common to cholera. If the owner waits for three or four days to make sure of the symptoms, a number of pigs may become infected and die provided the disease is cholera. Even though the disease is not cholera the cost of vaccination is not lost for the owner has an immune herd once he has vaccinated."

"Bowel troubles, which seem to be on the increase, have been investigated at the station for the last three years with the result that considerable progress has been made in controlling them. These troubles are most prevalent among shoats. As soon as trouble from this source becomes apparent, the animals should be given a purgative and then moved to clean sod pastures after the medicine takes effect. Plenty of fresh water, ground feed and the use of an intestinal antiseptic have been found to be helpful in controlling this trouble."

"Experiments are under way on a number of farms in the state to determine whether or not abortion in swine can be controlled by the use of vaccines. A number of sows in different herds that aborted this spring have been vaccinated and rebred to determine the value of this treatment. The vaccine is furnished free by the station."

"The common round worm of hogs seems to be the most troublesome parasite, this worm being most serious in pigs from four weeks to five months old. Oil of chenopodium, which may be purchased at any drug store, is said to give results equally as good as those obtained by the use of higher priced drugs. Two cubic centimeters of the oil of chenopodium are given with about 30 cubic centimeters of castor oil to a pig weighing from 40 to 100 pounds."

Eight Adair

County Culls

Lay Only Six Eggs During Week

Eight hens culled from the flock of 24 Rhode Island Reds owned by Miss Ella White, who lives near Columbia, Adair county, because they showed characteristic signs of being low producers that had stopped laying until spring produced a total of only six eggs during the week after they were removed, according to a report which she has just made to the extension division of the College of Agriculture on a culling demonstration held on her farm. During the week before culling the 24 hens in her flock produced a total of 38 eggs while the 16 that were kept as layers produced a total of 36 eggs during the week after culling.

I have used this remedy on several occasions when my kidneys were giving me trouble and it never failed to do me good. I am a farmer and have considerable exposure and hard work to undergo and this puts my kidneys out of order. I have suffered a lot from backache and pains through my hips and there was one time when I was past going. My kidneys were weak and unnatural most of the time. I wanted to pass the secretions every little while, too. When I feel any of these symptoms coming on I go to Spoonamore's Drug Store and get a box of Doan's Kidney Pills. After using them a while my troubles become corrected."

Find a Better Way

The settlement of the great coal strike assures us that the people will not freeze this winter. For so much we are thankful. But it does not contain any assurance that the same conditions will not prevail a year hence, with all of their attendant ills and inconveniences to the nation.

A better way of settling labor difficulties should be found, and that agency should be the

congress and the federal government.

The laborer is forced to pay the same high prices for everything he uses as are paid by other people. He therefore is entitled to a wage that will enable him to live in reasonable comfort, educate his children, and lay by a sufficiency for the time when his days of usefulness will be over.

The employer is entitled to the same consideration, as he is required to live under the same high priced conditions. He should be assured a fair profit on his investment.

The great army of consumers, who outnumber these elements many times over, are also entitled to consideration—but seldom receive it. They are the goats in every strike that occurs, the victims who in the end pay the penalty without hope of redress.

There should be no more strikes, but there should be some method of assuring labor a square deal at the hands of the employing corporations, for without some such protection the laboring man would be crushed and ground to atoms. Arbitration between labor and capital is hopeless. That has been proven in the past. Neither side seems willing to recede from its demands, or to accept a compromise, knowing that any such arrangement simply means a short period of renewed activity and then a return to the merry war.

Congress could authorize and the president could appoint commissions in the sever-

al lines of industry whose duty it would be to settle all such controversies with justice to both sides, and at the same time regulate the prices of the commodities in order to protect the consuming public from profiteering.

The brain of one man—Judge Landis—has revolutionized baseball, because that brain is fair and just to all, and from its edicts there is no appeal. And the baseball world has never been so free from trouble as it is today.

What Judge Landis can do to baseball other men of ability and fairness can do in the coal, railroad, building and other industries.

The only things required are the authority and the men.

The Governor We Need

(Interior Journal)

Kentucky needs just now a Governor with a backbone and determined purpose to put the state where she belongs, in the front of progressive American commonwealth. The nominee of the democratic party for governor in 1923 should be a man in whom the people of the State have confidence, first. He also should be a man who will use every power placed in his hands by the law and constitution to enforce the laws of the state everywhere within her borders. He should be a man whose view of the law will prevent his pardoning "any guilty man." Nor will such a governor as we have in mind "pardon any man for political considerations."

The kind of governor Kentucky needs is a man who will give his word, and then keep it after election, to do all in his power to reduce the expense of the state government, to eliminate every useless office, regardless of time-worn precedent, to put the state institutions in the hands of capable and competent men and to realize his responsibility to all the people of the State.

The Interior Journal believes that just such a man as that can be found in the person of the honorable Judge of the Circuit Court of this district, Hon. Charles A. Hardin, and it invites the consideration of all democrats who want a better state of the wisdom of nominating him for the highest office in the gift of the people of the commonwealth. What Judge Hardin pledges himself to do before election he will do after election. If nominated he will not bring into the campaign any of the old factional warfare which has rent the party for the past four or five years. He has the confidence of all the leaders of the party and, in the opinion of the Interior Journal, which long has been his friend and has admired his high character and official integrity, he can be elected over any candidate the republicans may name for the office.

Let "Hardin and Harmony" be our watchword and we can "throw the rascals out" in 1923.

"THE LANCASTER BAPTIST"

Title of Initial Publication of
Local Baptist Church

The September issue of the Lancaster Baptist, a monthly publication devoted to the interests of the local Baptist church, has reached our desk and is a very commendable sheet indeed. The personnel of the publication includes Eugene Cochran, editor; Lillian Estes, social editor; Hugh Moberly, business manager and William E. Rix, pastor.

Every member of the church should and doubtless will contribute to its circulation and derive much good from the splendid articles, which the initial number offers. The subscription price is \$1.00 per year.

The introductory issue says this in making its bow to the public:

"We appear upon the scene, not as a competitor of the local newspaper, which has its distinctive and proper place in every progressive community, but rather as an advocate and promoter of church activity and church efficiency."

We also hope that The Baptist may serve as a means of communication between the home church and every member near and far. Live interest in any undertaking can be sustained only on the basis of up to date information, and this holds true in church business as in other matters. Every member should know what his church is doing or hopes to do. When victories are accomplished, he should be able to rejoice that he has a part in that victory. When difficulties are encountered every member should know and bear his share of the burden.

To this end every branch of our church activity is urged to tell of their work thru our columns from month to month. Words of commendation and constructive criticism will be welcomed and they should serve as a means of grace and growth in efficiency to all who are "exercised thereby."

A roll of honor will appear from time to time bearing the names of individual members and classes who have reached the 100 per cent degree of efficiency.

A "Personal Mention" column will convey news of members in their relation to church work here or elsewhere, but society items of a general character must be omitted for lack of space.

We have a fixed policy to eschew politics, insofar as that term applies to individuals or to parties, but we reserve the right to express ourselves on any moral issue which may arise in the community irrespective of parties or individuals concerned.

We expect to observe the injunction of scripture given in II Timothy, 2:23, "to avoid foolish and unlearned questions, knowing that they do gender strife."

While the Baptist is published as the organ of the local church it will carry nothing in its columns that should prove objectionable to any lover of truth, regardless of denominational affiliation, and we therefore welcome to our family of readers, not only the Baptist constituency, but all our friends and fellow citizens who are interested in church efficiency and vital godliness in this community."

Exchange

The Christian Endeavor of the Christian Church will give an Exchange at Haselden's Store, Saturday.

ADDITIONAL PERSONALS

Miss Virginia Bourne is visiting relatives in Louisville this week.

Misses Laura Dunn and Helen Gulley, were visitors in Danville Tuesday.

Mr. J. E. Stormes and Mr. Bradley Spratt are spending the week in Louisville.

Mrs. Pattie Anderson, Mr. and Mrs. J. Raymond Haselden have been recent visitors in Lexington.

Mrs. J. C. Hemphill, after a visit to Mrs. Margaret Robinson, returned today to her home in Louisville.

Mrs. Mertie Hopper Brewer, of Lebanon, is the guest of her sister, Mrs. Terrill Layton and Mr. Layton.

Miss Mamie Stapp and Miss Ruby Gastineau left Monday for Oxford, Ohio, where they will be students at the Oxford University for the year.

Miss Lizzie Wherritt, of New Orleans, is the pleasant guest of her niece, Mrs. J. E. Stormes and Mr. Stormes, on Richmond street.

Miss Elizabeth Anderson left Monday for Georgetown, where she will have charge of the trimming department in a millinery store.

The many friends of Mr. George Palmer are sorry to know he continues very low at the St. Joseph Hospital, in Lexington. The last report was that he could live but a few days.

Mrs. John L. Anderson returned to her home at Washington City Tuesday, after several week's visit to her mother, Mrs. Arthusa Currey.

Miss Virginia Dorsey, of Flemingsburg, and little Miss Lucille Thompson, of Springfield, are guests of Mrs. Harry Hudson and Rev. Hudson, on Maple avenue.

Miss Edna Gulley, who has been spending the summer with Lancaster relatives, returned to Canada Tuesday to resume her work in the school for the Deaf.

Mr. and Mrs. Burton Stapp entertained Saturday evening with a six o'clock dinner in honor of Miss Mamie Stapp, who was leaving for Oxford, Ohio, to enter college. An elegant four course menu was served and the affair proved a most delightful one.

A very pleasant gathering of children and grandchildren was the surprise dinner given Sunday at the home of Mr. and Mrs. Alexander Layton, on the Buckeye pike. The table was placed on the lawn and was covered with a pretty cloth and had for its center piece a basket of fall flowers. The menu consisted of chicken, ham, sandwiches, salad, pickles, jelly, sherbet, ice cream and all kind of home made cakes, which was furnished by the children. About thirty guests assembled to enjoy the festive occasion. The gracious hospitality of the children was thoroughly appreciated by the loving parents.

The CALORIC HEATS THEM ALL

Homes, stores, churches, factories—all over the country—are being heated more comfortably and at less cost with the Caloric pipeless furnace.

The Caloric delivers practically 100% of the heat from the fuel directly into your rooms, and at the same time withdraws the cool air from the building. This establishes a natural air circulation, with the result that the building is heated more uniformly and fuel consumption is cut 1/3 to 1/2. There are now

OVER 135,000 CALORIC USERS

—in every state in the Union, in Canada, Alaska—and many in this locality.

Here a word of warning. Caloric success has been so revolutionary that it has aroused opposition from those who profit from making and selling out-of-date heating systems. The result is that many imitation pipeless furnaces have been put out which are failures. Be not misled by these failures. Most of them were designed to be failures—and have been marketed in vain attempts to discredit the rapidly-growing Caloric idea.

The Caloric is a 100% success—proven so by its record through years of making good—and by the guarantee of "satisfaction or money back" under which we sell it. Get the genuine Caloric—identified by the name on the register and feed door. Sold in this locality exclusively by

Marksbury Trims Back Creek

On Sunday, Sept. 3rd., the Marksbury baseball team defeated the Back Creek Nine, on the latter's grounds, in one of the hottest contested games of the season, the score being 3 to 2, in favor of the visitors. Daily, the Star Pitcher for Marksbury was at his best, allowing only 5 hits, which were well taken care of by the field-

ers. The Back Creek boys used two pitchers in a vain attempt to win, but were never able to overcome the one score lead. Marksbury took in the 4th. inning.

Paint Lick Downs Danville 7 to 4

Playing an uphill game the Paint Lick baseball team defeated the Danville club at the West Danville grounds last week by a 7 to 4 score. The defensive work of the home boys which has been of the air tight variety in recent games, cracked last week and the wobbles permitted four of Paint Lick's runs.

Ro Rohan worked for Danville in the box while Lackey hurled for the enemy. A fair crowd turned out for the occasion and did its best to put Danville over. Paint Lick has one of the best semi pro clubs in the state, having defeated the Harrodsburg crack organization in three games this year, Lebanon and other fast stepping clubs.

Danville got away to a two run lead at the start and seemed to be on its way to another win when the error malady caught the locals and Paint Lick sent over seven tallies. Danville Messenger.

Open The Iron Doors

The press and the consumers of this country should unite in a determined and relentless effort to prevent profiteering in coal prices this winter—if we get any coal at all.

Henry Ford has taken the lead in this movement and has been promptly supported by the city of Detroit. The coal profiteer will find little comfort there. He may even find a few prison bars.

But Detroit holds only a tiny proposition of the coal consumers of the United States. Though they lose in Detroit, a few dollars a ton tacked onto the price of coal throughout the country will filch hundreds of millions of dollars from the pockets of the consumers and transfer them to the swollen bank accounts of the profiteers.

It is folly to apply persuasive methods in attempting to prevent profiteering. A profiteer has no conscience, at best.

Prison cells are the only

things that cause terror to them—the only curb that will have any lasting effect.

Open the iron doors and shove 'em in!

If the legal arms of the government and states fail to prosecute these "birds," then there is a drastic law that applies to dereliction of duty.

It is Possible

Fat people are dissatisfied with their lot, and skinny ones are equally so, while the betwixts and betweens long to be something else. Some day the Creator may be able to please people in the way He makes them—and perhaps not.

Of course honesty is the best policy—when it wins.

A secret is something you are just dying to tell.

Wasps never make noises. They only cause them.

The fellow who gets what he wants is seldom satisfied. It isn't just as he wants it.

The Basket Ball team met and re-organized their team with Miss Thelma Tudor Manager.

The Base Ball team are working on their diamond and will soon be ready to play the other schools.

Mr. Ben Dunn is a regular week end visitor at Manse since school opened, and makes frequent calls on Rev. Ramsey.

Public School music is being regularly taught in the Manse School by Mrs. J. C. Tudor. Piano music will also be taught to pupils paying extra charges.

Miss Minnie Nelson Ramsey left this week for Chattanooga, Tenn., where she will enter High School. She will be greatly missed by her many friends at Manse.

Mrs. Slavin, who has been at Manse for some time, left for Richmond this week, where she recently bought a new home. Richmond may well be proud to have a citizen like Mrs. Slavin.

Misses Blanche Bowling, Nina Estridge, Lula Spilman, Vernelle Gooch and Messrs. Herbert and William Tudor entered the Junior department of High School at Paint Lick, Sept. 4th.

Misses Delora and Martha Napier who have been visiting Mrs. C. B. Ledford this summer, have returned to Asheville, N. C., where they will re-enter school. Miss Eloise Ledford will join them this week and also enter school.

The parents and teachers of Manse school met last Friday and reorganized, with Mrs. Walter Norman, President; Miss Fay Ward, Secretary and Mrs. Burdett Ramsey Treasurer. They are planning to make quite an improvement on the school grounds this year. The next meeting will be on Thursday night, Sept. 21st., at which time a temperance program will be given by Manse pupils.

On Saturday night before school opened the Parent Teacher's Association met at the school building and had a very interesting meeting, laying plans for the coming year. An ice cream supper was given by the association for the benefit of the school and nearly all the parents attended and showed great interest by helping in every way to make the association a success.

Manse Graded and High school opened Sept. 4th., with an enrollment exceeding the census. Mrs. J. C. Tudor, the principal, is very much delighted to have her same efficient teachers return and take up their duties. Miss Fay Ward, the assistant principal, spent the summer in Asheville, N. C., and Tennessee, visiting relatives and friends. Miss Callie Reid attended school at Bowling Green and visited in Tennessee.

Mr. and Mrs. Jim Turner and Miss Della Mae Turner, motored to Springfield for the day Saturday and were guests of Mr. Chas. Durham and family.

Rev. Bos Si Ding, a senior in Georgetown College, will preach morning and evening at the church next Sunday. Everybody invited.

Fisher Hughes sold two heifers to Mr. Center at 6 cts. Wm. Blanks sold to same party six cattle at 5 1/2 cts.; Green Estes one bull to Mr. Rankin for 3 1/2 cts. per pound.

The Ladies' Working Society gave a supper on the spacious lawn of Mrs. A. J. Rice last Thursday evening. A fairly good crowd was present and a neat little sum was realized. The evening was a perfect one for the event and a nice social time was enjoyed.

Man and beast enjoyed the splendid rain which fell the first of the week, breaking a drouth of many weeks. Things were getting in a precarious condition—vegetables had about dried up, stock water was low and drinking water in many homes was almost held at a premium.

Success to all of your efforts—if they are worth it.

Important Factor in Coal Production

Deeds of Carrie Nation Recalled

Last Sunday's Courier Journal carried another of Wm. S. Kaitenbacker's interesting articles; all of his writings are always pleasant to read and well worthy of reproduction. We quote in part some of the history mentioned last Sunday in which he says:

"About twenty years ago a railroad was promoted between Shelbyville and Carrollton under the name of the Shelbyville and Ohio River Railway, but only about a hundred yards of the line between Eminence and New Castle was actually constructed before the enterprise became involved in financial trouble and went into the hands of a receiver.

W. P. Thorne, one of the State's noted wits and raconteurs, was appointed receiver of the "Sorry" line as it had come to be known after being beset by financial difficulties. Receiver Thorne in a spirit of fun had ornate annual passes printed which he sent to other railroad executives with a request for an exchange of courtesies with which the most of them complied few of them having any idea of the "Sorry" line other than that conveyed by the lithographed annual pass.

It is related that the late Milton H. Smith, president of the L. & N. system, knowing Mr. Thorne and suspecting a joke, wrote to the receiver inquiring the length of the "Sorry" railroad.

Not to be outdone Receiver Thorne promptly replied.

"My road may not be as long as the L. & N., but it is just as wide."

The explanation seemed to satisfy President Smith for an L. & N. annual was promptly forthcoming.

Kentucky Fuel Factor

The coal strike has served to stress the importance of Kentucky as a factor in the nation's fuel production. Although development may be said to have but fairly begun, the State is one of the largest in the bituminous field and hte fourth in coal production.

Just a century ago, in 1822, the first coal was shipped from a Kentucky mine, a Muhlenburg county pit being the scene of the first commercial coal production. The output was less than 400 tons for the first year and from that time on the production steadily has increased until last year the coal output of Kentucky mines approximated 40,000,000 tons. With the strides in coal production it seems to be only a matter of time until Kentucky goes over the top with an annual output of 100,000,000 tons of black diamonds.

While the coal mines of Western Kentucky have been gradually developed since the discovery of the fuel in that section, the development of the Eastern Kentucky field has been of more recent origin. To the late John C. C. Mayo is due the main credit for the development of the eastern field. Mr. Mayo saw the possibilities of coal in Eastern Kentucky and it was largely to his efforts that Eastern capital was persuaded to finance the initial development of the then hazardous and practically untouched prospect.

Mr. Mayo died in the prime of life but not before he saw his foresight vindicated and real development operations begun in his section of a practically inexhaustible deposits of the finest coal to be found on the American continent. He died with holdings that soon would have made him as rich as Croesus.

Carrie Nation a Kentuckian

Among other distinctions Kentucky furnished a pioneer and zealous worker in the anti-saloon crusade, in the person of Mrs. Carrie Nation, who was a native of Garrard county, but was a resident of Kansas when she blossomed out into a saloon smasher and wrought much havoc with her trusty hatchet.

Mrs. Nation's crusade carried her all over the country and her quest of barrooms to demolish sometimes brought her to Kentucky. It was on one of her trips to Kentucky that Mrs. Nation was roughly handled by a saloonkeeper in a small town after his place bore the marks of the hatchet. His treatment of Mrs. Nation aroused a storm of indignation against the saloonkeeper and accelerated the "dry" movements in Kentucky.

Whenever Mrs. Nation came to Louisville, she was followed from one saloon to another by a large crowd eager to see the Kansas rum smasher in action, but Mrs. Nation seemed to get along swimmingly with Louisville cafe proprietors for her activities here were confined to exhorting the hangers-on, distributing leaflets and knocking cigarettes out of the mouths of youths.

Mrs. Nation used to say that she

Hessian Fly Damage Not Certain as Yet

The exact extent to which the Hessian fly probably will damage wheat sown in Kentucky this fall cannot be determined until the season is more advanced and the presence of the flies are observed on volunteer wheat in different sections of the state, according to Harrison Garman, entomologist at the Kentucky Agricultural Experiment Station. However, farmers are being warned to sow their grain after "fly-free" dates and to take other precautions in the way of well-prepared seed beds, the use of fertilizers and good seed in order to reduce the annual damage caused by wheat's worst insect pest. The fact that few reports have been received on damage done by the fly during the past year is no indication that the state's wheat crop will be free from the ravages of the insect this year, he pointed out.

Spud Seed Certification GETS UNDER WAY IN STATE

Forty Jefferson county farmers who are members of the certified seed potato growers' association recently organized in that county have made a good start with their plans to produce "pedigreed" potato seed, according to J. S. Gardner, vegetable gardening extension specialist of the College of Agriculture, who recently completed the first inspection of their plots for the present season. Another inspection of the plants in the field will be held later in the season while the tubers also will be inspected in the bin before the stock can be completely certified and pronounced fit for sale as such. The 40 farmers are the growers of 150 acres of potatoes which will be certified this year and which are the first to be grown under a similar plan in the state.

The inspection, which was held for the chief purpose of detecting some of the more serious diseases, revealed the fact that the Jefferson county stock contained a percentage of disease less than the minimum allowed for certified potato stock. Mosaic, leaf roll, blight and black scurf were the chief diseases looked for in the inspection.

Despite the fact that the Jefferson county potatoes got off to a late start because of weather conditions, recent rains have benefited the crop considerably and indications are that the growers will obtain satisfactory yields. All growers concerned are enthusiastic about the prospects for this year's crop and the future of their newly formed association, Mr. Gardner reported.

Since the formation of the Jefferson county association, the production of certified seed potatoes has aroused considerable interest among farmers in other sections of the state. Organization of a second association has just been completed in Shelby county, the farmers being charter members of it. C. W. Guthrie has been named secretary of the new association.

Certified potato seed should continue to grow in favor with Kentucky farmers in view of the fact that the use of it has produced marked increases in yield over those obtained from ordinary seed stock, Mr. Gardner said.

Mr. and Mrs. Dudley Green, of

"The condition of Kentucky's wheat crop has been improved materially from year to year because many farmers have adopted the practice of sowing their seed after the dates on which the flies have disappeared. However, the insect will continue to present a serious problem to the grain growers of the state until every farmer adopts the practice of sowing after the fly-free dates. One farmer who sows before these dates can harbor enough flies in his grain to infest many acres the following year. The Hessian fly problem in Kentucky will be largely solved when every farmer waits until after the recommended dates for his community before sowing wheat."

Because of the life history of the insect, wheat sown in September is almost sure to be badly infested. The adult flies become fewer in number toward the end of the month and when frosts come are largely destroyed. Wheat sown in October in Kentucky is not likely to be infested. In average seasons, October 5th, has been found to be the most favorable date for sowing in Eastern Kentucky, October 5th, to 10th, for Central Kentucky and October 10th, to 14th, for Western Kentucky.

Well-prepared seed beds, the use of fertilizers and seed that is known to be strong and hardy all help to make wheat better able to withstand the attacks of the insect, crops specialists of the station say.

Goodbye Boils!

S. S. S. Will Rid You of Boils, Pimples, Blackheads and Skin Eruptions.

A boil is a volcano—your blood is so chock full of poisons that these "boil" out into a boil. They'll keep "boiling up" until you destroy them completely by the use of S. S. S., one of the most powerful blood-purifiers known to science. S. S. S. has stood the test of time. The power of its ingredients is acknowledged by authorities. Its medicinal ingredients are guaranteed to be purely vegetable. Right off, it clears the skin of pimples, boils, blotches, blackheads, acne, eczema, rash and other skin eruptions, and does it thoroughly. It drives out of the blood impurities which cause rheumatism, makes the blood rich and pure builds up lost flesh. It helps to manufacture new blood cells—that's one of its secrets. S. S. S. is sold at all drug stores, in two sizes. The larger size is the more economical.

Facts About Bees.

A Belgian scientist found that a bee, weight for weight, is thirty times as strong as a horse. The female bee has a set of wristcoat pockets. When she is engaged in making the cells of the honeycomb, tiny flakes of wax are secreted in these little pouches, from which they are removed by her with her jaws, as needed.

Spoonerism.

Spoonerism, noun. Accidental transposition of initial letters, etc., of two or more words (e. g. "has just received a blushing crow," "for real enjoyment give me a well-boiled icicle"). From Rev. W. A. Spooner, esteemed for Spoonerisms.—From the Concise Oxford Dictionary.

A noisy tongue is readily heard. So is a pig's grunt.

Two Great Tire Values for the Light Car Owner

WHEN you note the prices quoted below on 30 x 3½ inch ROYAL CORD and USCO Tires—bear in mind that while the price has been going down, the quality has been going up.

The New and Better USCO is bigger, with thicker tread and sidewalls, more rubber, better traction, greater mileage.

The ROYAL CORD is more than ever confirmed in its leadership as the measure of automobile tire values.
